Advantages for companies

• All projects are approved and supervised by a professor from TUM School of Management and a representative of the company
• Participating companies benefit from the practical results of the project
• Companies enjoy direct contact with TUM School of Management
• Companies can propose projects themselves by sending them to annika.deichsel@tum.de for posting on the website of the Departmental Student Council of TUM School of Management
• Projects may be research-based or practical
• Projects can be in a technical field, subject to approval by the supervising professor

Details

TUM School of Management places a strong focus on students gaining practical experience in business.

- The Project Studies module consists of a research or practical project carried out by a student team in collaboration with a company
- Student teams usually consist of four or five B.Sc. or M.Sc. students (minimum: two)
- Topics are chosen by student teams or suggested by companies
- The student team designs the structure of the project and selects the methodology
- Projects normally last three months full time; a part-time option (usually six months) may be possible in consultation with the company
- Students gain valuable hands-on experience
- Mandatory for students on the Bachelor’s Program in Management & Technology (TUM-BWL) and the Master’s Program in Management (Track 1, TUM-WIN)
- Optional for students on the Master’s Program in Management (Track 2, TUM-NAWI)

For further information, please contact Dr. Annika Deichsel (annika.deichsel@tum.de; phone: +49.89.289.25045).

Bachelor's Program in Management & Technology (TUM-BWL)
70% management, 30% engineering or natural sciences
