KEDGE Student volunteers make up a critical part of our International Summer Programmes. Students from the KEDGE student organisations on each campus start by greeting their international guests upon arrival.

But they don’t stop there. Our students go the extra mile to organise a complete program of optional extra visits designed to give our international guests an insider’s look at life in France – by day and night!

Activities are set up to be big on fun, without being a high price so that everyone can participate.

PAST SUMMER PROGRAMMES HAVE INCLUDED:

- Beach parties and picnics
- Extreme tubing
- Evening hikes with a swim in the sea
- Nights on the town, touring the best clubs and places to be
- Trips to nearby towns and monuments
- Group sports (football, rugby, volleyball…)

Paris is a city that needs no introduction - the City of Lights. An indisputable world capital, home to the signing of the most ambitious international accords concerning climate change, the Paris Agreement in 2016, and future host to the 2024 Olympics, it has inspired some of the greatest creative talents and critical thinkers throughout modern history. What better place to spend 2 weeks gaining an insight into Disruptive Technologies and their impact on the companies and managers who use them!

Bordeaux, France, a UNESCO listed heritage site voted the European most attractive destination, is renowned for its fine wine and luxury market. A study opportunity in Bordeaux is the opportunity to take a closer look at the crossroads between traditional expertise and standards of excellence as they intersect with the concepts of luxury brand management and marketing. Thanks to its location on the Atlantic coast and just 2 hours from Paris by highspeed rail, Bordeaux is a hub for a number of multinational companies and a growing economy, making it a logical choice for a closer look at innovations in Supply Chain Management & Design. Bordeaux is also a reference for “FrenchTech” for its aptitude in developing innovative technologies.

Marseille, France’s 2nd largest city in France, is beautifully situated on France’s southern coast, bordering the Mediterranean Sea. It was the first Greek settlement in France (est. 600 B.C.). It is also one of Europe’s biggest port cities that links Europe to Africa, Asia and the Middle East. A Crossroads of the Mediterranean, modern Marseille is a city with a diverse population, both in terms of ethnicity and culture. Named as the European Capital of Culture in 2013 and the European Capital of Sport in 2017, Marseille is one of France’s most dynamic cities. With 7,200 companies created over the last 5 years and as France’s second largest research centre, what better place to come and join one of our International Summer School programmes dedicated to Sustainable Entrepreneurship, Design thinking and Sports Marketing.
