Recognition of TUM courses, which were attended before starting your Master’s at TUM School of Management

How to find the responsible chair:

First have a look for the relevant module in the module handbook (under course contents/curriculum support in your TUMonline Account) and find the person responsible for the module, as shown below:

Next, check our website (www.wi.tum.de) or do a Google search to find out which Chair this person belongs to. Then consult the website or Office Management of the Chair to find out who you should submit your application to. Please do not submit your application directly to the Professor or lecturer unless you are explicitly told that they are the person responsible.
