Student Assistant Position
(m/f/d)

At TUM School of Management, we explore the use of virtual reality and mixed reality for teaching. How does the classroom of the future look like? How can we create more effective hybrid formats that blend in students from other locations seamlessly? How can we make online teaching even more real? How can we create content efficiently? These are just a few of the questions we are currently exploring.

Prof. Dr. David Wuttke and his team are looking for two Student Assistants starting at the earliest date possible. You will support us in organization, research, and teaching with a special focus on digitalization. As student assistant, you will be part of our vibrant team located at our Heilbronn Campus. Importantly, you have the option to choose working remotely. Working hours are flexible and can be between 20 and 40 hours per month. The position is initially limited for 6 months, but the option for extension is given. A longer-term cooperation is desired.

We offer...

• extremely cool tasks (work with virtual and mixed reality in education!),
• flexible working hours which you can align with your ongoing studies,
• the option to work remotely,
• learning opportunities (programming in VR, 360-degree video technique, etc.),
• the chance to gain insight into research and teaching during your studies.

We are looking for team players who...

• are currently enrolled,
• are enthusiastic about virtual reality and digitalization of education,
• are willing to acquire new skills and knowledge,
• are interested in getting things done,
• have strong English or German skills,
• ideally, already have some programming skills.

Tasks (Among Others) include...

• help making our lectures even more interactive and student centric,
• identify novel software and hardware solutions, and
• participate in creating simulations for teaching (and research).
Application

Please send your application (including a short CV, short motivational letter and a current transcript of records) via e-mail to Prof. David Wuttke at david.wuttke@tum.de, quoting the subject “Student Assistant / Virtual Reality”. For further information regarding this job offer please also contact Prof. Wuttke. The application deadline is (midnight on) Friday, March 5th 2021.

TUM strives to raise the proportion of women in its workforce and explicitly encourages applications from qualified women. Applications from disabled persons with essentially the same qualifications will be given preference.

Being one of the best schools of management in Germany, the TUM School of Management is building a unique bridge between management and technology within an international teaching and learning environment. With our triple accreditation (AMBA, AACSB und EQUIS), our focus is on high quality in research and education. Our Heilbronn Campus, where this position will be located, is shaped by great opportunities and flexibility that foster an international environment.

Data Protection

As part of your application, you provide personal data to the Technical University of Munich (TUM). Please view our privacy policy on collecting and processing personal data in the course of the application process pursuant to Art. 13 of the General Data Protection Regulation of the European Union (GDPR) at https://portal.mytum.de/kompass/datenschutz/Bewerbung. By submitting your application, you confirm to have read and understood the data protection information provided by TUM.
