Once the world map has appeared, you can select the partner institution you are interested in below the map. Should there be a problem with the link, please try a different browser or click on the button „Relations“ (next to „Institutions“) above the world map.

Via this database you can also browse reports of TUM students who have been abroad: please go to the button „Study Reports“ next to „Relations“ (on the page of the partner institution). Our former database offers additional reports: moveonline.zv.tum.de/move/moveonline/exchanges/search.php. Make sure you tap into the wealth of experience of TUM students before you!

More information about our exchange programs, application procedures and funding possibilities can be found on the website of the International Center: www.international.tum.de/en/go-international/

Please note that the summer courses & research internship program listed in the database are administered solely by our partner institutions and that TUM IC can therefore not offer advisory services regarding these programs. Please use the contact information provided on the partner website.
