1. Graduate School and Graduate Center

- Administrative Processes
- Subject related qualification program

- Set the framework conditions for all faculties
- Strengthens networking possibilities
- Offers interdisciplinary courses
- Supports mobility of doctoral candidates
2. Starting your Doctorate at TUM School of Management (I):

- Find a **supervisor** and determine your **dissertation topic**

- Fill in the **supervision agreement** together with your supervisor

- Find a **mentor** (*must* sign the supervision agreement)

- **Register in DocGS** and print out the application form

- Hand in the **complete application documents** at the Graduate Center (Ms Janine Rothenburger):
  - Completed and signed supervision agreement
  - Signed application form (DocGS)
  - Officially certified copies of your degree certificates and of your degree transcript
  - Passport or Identity Card
2. Starting your Doctorate at TUM SoM (II):

Register on DocGS [http://www.tum.de/doc-gs]:

Welcome!
Welcome to DocGS, the online registration service for doctoral candidates at the Technische Universität München (TUM). DocGS is not a portal for applications, but rather the place to apply for being added to the doctoral list. You can apply at any time, there are no fixed times. Once your application is approved, you will be added to the doctoral list and automatically become a member of the TUM Graduate School (TUM-GS). Candidates that hold a qualifying degree obtained abroad, need both to apply for being added to the doctoral list and apply to have their foreign degree recognized. Before applying, you need to meet the following requirements (see also TUM Regulations for the Award of Doctoral Degrees):

1. You have an above-average degree and confirmed supervision with an appropriate supervisor at the TUM. Jointly you have identified the responsible department at the TUM and determined your applied doctoral degree. In some cases, the collaboration with another department can be necessary.
2. Unless you are part of a structured doctorate program, you should have, together with your supervisor, identified a fitting Graduate Center at the TUM. You have ascertained whether membership in that particular Graduate Center is realistic and available.
3. Together with your supervisor and mentor, you have filled in the supervision agreement of your chosen Graduate Center. This document must be signed by your supervisor, your mentor, the graduate center and yourself.

Once you have made these arrangements, you are ready to register with DocGS. Please:

- fill in your profile,
- provide the required information on your dissertation project and your qualifications,
- review the indicated data carefully. It might be helpful to print out the preview application form and review it in consultation with your deanery and/or supervisor,
- once you are done, send off your application electronically,
- and print out the final version .pdf file and, together with the necessary documents, take/send it to the deanery responsible for you.

As member of TUM-GS you are eligible to the services and offers of TUM-GS. Please find more information at TUM-GS official website. DocGS is the platform where you can enter the qualifications you have successfully participated in and get them recognized by your graduate center. Furthermore, you can apply for funding of your international activities or course reimbursements. The annual data actualization to confirm your TUM-GS membership is also being done via DocGS. Thus, by regularly updating your DocGS account (at "my progress") you can easily track your progress.

The information you provide helps us to keep improving the services of the TUM-GS and adjust them to the needs of our doctoral candidates. Furthermore, it allows us to keep you posted on interesting services, activities and news. Please make sure that your contact details are always up-to-date. If you have any questions or comments concerning your registration, please contact the Management Office of the TUM-GS (docgs@zv.tum.de).
