Registration for courses with limited places in summer term 2022 of TUM School of Management

Dear students,

In the summer semester 2022 the registration and distribution for the place-limited courses at the TUM School of Management will take place via TUMonline. If you want to find out more about the distribution criteria, please refer to the "Statutes on the Determination of Criteria for the Admission of Students to Courses with Limited Admission Capacity for Bachelor's and Master's Degree Programs at the Technical University of Munich"

Below you will find all the important dates and information about the application procedure:

**[From 14.03.2022]** Please check TUMonline for the course offering in the summer semester 2022. Please also check whether the course is part of your degree program. The offer might be extended throughout the weeks to follow, please stay updated.

**[28.03.2022 – 10.04.2022]** Apply for desired courses and enter your preferences. The timing of your application does not favor obtaining a fixed place. You do not have to apply directly on 28.03.2022 at 00:00. Please use the entire period for the application; otherwise, there may be problems with TUMonline.

There are two master instances, meaning categories to choose from:

1. Advanced Seminar (maximum of one place per semester)
2. Other limited courses Master (maximum of two places per semester)
3. Seminars (Bachelor) (maximum of one place per semester)
4. Other limited courses Bachelor (maximum of two places per semester)

For the instances "Advanced Seminars" and "Seminars", each student can get a maximum of one place per semester, for the instance "Other limited courses" each student can get up to two places per semester.

This means you must indicate your preference for each course you choose. This allows for up to 18 credits per semester from place-limited courses. The restricted courses are not your only option for earning the necessary credits in your major or elective. There are also non-participant-restricted elective courses in TUMonline. Please refer to your Curriculum Support to find out which of these are applicable to your program of study (see also „Manual on Course Planning and Scheduling“ https://www.wi.tum.de/downloads/).

**[15.04.2022]** Announcement of the fixed places: You can now check on TUMonline for which course you have received a fixed place (status "Confirmed place").
If you still have the status "Requirements met", then you have not been assigned a fixed place and cannot participate in the course. If you do not want to take part in a course for which you have been given a fixed place, please make sure to immediately cancel your fix place, otherwise you will block urgently needed places for your fellow students.

Please note that you cannot deregister from courses yourself, without de-registering from the whole procedure. If you do so, you will be automatically removed from all the place-limited courses you have registered for. If you wish to deregister from single courses, please fill out the deregistration form (https://www.wi.tum.de/wp-content/uploads/2016/09/Deregistration-form-TUM-SoM-1.pdf) and send it until **20.04.2022** to our seminar team: seminars@mgt.tum.de.

**[22.04.2022]** the places that have become-available by then will be distributed again via TUMonline.

If you are still at the beginning of your studies, it is advisable to first attend some basic subjects. These are usually not limited as regards the number of participants and can be registered via TUMonline. For individual advice on course selection or study planning, please contact the Program Manager of your degree program.

Please make sure to apply for limited courses in time and contact us as soon as possible via seminars@mgt.tum.de if you have any questions.

Also, be informed that we assume that most of the classes and lectures of the upcoming summer semester will take place back on campus.

Best regards,

Seminar Team
