Information Event for students in the first semester of the Bachelor in Management and Technology (TUM-BWL)

TUM School of Management
Christine Geiger
January 18, 2021
German as a Foreign Language

TUM Sprachenzentrum offers courses exclusively for international students of TUM School of Management during lecture free period

The intensive courses and trainings in spring 2021 belong to the winter semester 2020/21. They will start at the end of February/beginning of March and will last 2 to 5 weeks. All courses and trainings are expected to take place online and live at the times indicated in TUMonline.

For more information please visit the following website:

**Language Courses (online and live) March 2021 (Wintersemester 2020/21)**
- A1.1, A1.2
- 50 teaching units 14x in the evenings
- 4 Credits
- 10 x in the mornings

**Language Courses (online and live) March 2021 (Wintersemester 2020/21)**
- All levels from A1.1 to B2.2
- four weeks
- 56 teaching units
- 14x in the evenings
- 4 Credits

**Communication at Work (online and live)**
- B2/C1
- 24 teaching units
- 6 x in the mornings
- 15 teaching units
- 1 Credit
Agenda

- General information (courses, exams, etc.)
- English vs. German Track
- Most important legal regulations
- Credit Transfer, International Experience & Communications Skills
- Further information & guidance
- Specialization in technology
Agenda

General information (courses, exams, etc.)

- English vs. German Track

- Specialization in Technology
You can find important information here:

On our website you will find further information on:

- Application
- Program structure
- Course schedules
- FAQ
- Important documents and information sheets

Examinations

1. General information

- A module is usually concluded with a module exam.
- In addition to the exam, further assessments (papers, mid-term etc.) may be required during a course.
- A module is passed when you have successfully passed the module exam.
- Required modules and compulsory elective modules have to be passed.
  (Exception: Elective modules)
- Additional subjects do not count towards your degree and the Study Progress Monitoring.
- Please bring your student card and your identity card to all exams.
- Students on leave of absence cannot participate in examinations taken for the first time.
- Chairs usually offer post-exam reviews.
Examinations

2. Illness

• In case of illness provide a medical certificate or a certificate issued by an official medical examiner or public health officer (“Amtsarzt”, a list of TUM Partner Physicians can be found here: https://www.tum.de/nc/en/studies/during-your-studies/examinations/withdrawing-from-examinations-medical-certificates/). The certificate must specify the timeframe — beginning and end date — of the illness-related withdrawal and state the reasons for withdrawal.

• If you feel sick during the exam, please notify the examiner immediately! Please contact for more information/submit the medical certificate to the Grademanagement

(contact information on the next slide)

Last name (U, V, W, X, Y, Z) & (H, I, J, K, L, M, N)

(Technical University of Munich)
3. Resitting an exam

- If a module examination in a required or required elective module is failed, the module examination **must be repeated**. The retake exam **should** be taken within **6 months**.
- For every module examination at least **one opportunity to resit the exam** will be given.
- **Attention:** You **have to register** for the retake exam. The previous registration for the exam is not valid.
- The retake exam will take place either **before** the beginning or **at the end** of the lecture period of the following semester.
- An **improvement of the grade** by resitting the exam **is not permitted**.
- There is **no limitation** of retake exams. However, the student’s progress must be adhered.
- **Exception:** Bachelor’s Thesis and any **attempt of deceit** (incl. plagiarism) > **only one retake exam** will be granted.
- In **serious cases or repeated attempts of deceit** the student can immediately be excluded from taking further examinations in his/her study program and thus will lead to **deregistration**!!!

- Specialization in Technology
Bachelor in Management & Technology: Your options

1. Study program
2. Alternatives

1. Courses in English
2. Computer Engineering
3. Labeled „100% in English“

- Mixed Track
- German language skills needed
To avoid an overlap of lectures and exams it’s recommended to choose the courses as in the course schedules distinct by the two tracks.

If you mix up modules of both tracks, we cannot guarantee that the course schedules won’t overlap!
Lectures and exams in German and English

You can decide whether you want to take the basic courses in German (if available) or in English.

However, in consecutive courses it is recommended to continue with the language from the previous course, e.g. Economics I + II or Law I + II.
If you want to make sure that 100% of the courses will be taught in English, you should opt for Computer Engineering.

Other specializations in technology are mainly taught in German.
The study plan of the **German track** needs to be **compatible with all 5 specializations** (Informatics, Mechanical Engineering, Chemistry, Medicine, Renewable Resources) **taught in German language** and we are highly dependent on the planning made by each chair.

The **English track** is intended for students with **little or no knowledge of German** and whose **specialization choice is limited to “Computer Engineering”**. Thus, the English track only needs to be compatible with this specialization.

Due to these organizational difficulties, we cannot guarantee the avoidance of **overlaps between courses and/or exams** if you choose to **mix both tracks**.
It is allowed to take single courses from the English track while following the German track. Please note in this case that it’s your responsibility to make sure that no overlaps occur.

If you intend to take courses from both tracks, please do not put a checkmark in your curriculum support in TUMonline (next slide for more information).

The choice of language is binding when you register for the exam in that course. Please contact examregistration@wi.tum.de in case of issues.
If you intend to take courses from both tracks, please do not put a checkmark in your curriculum support in TUMonline.
If you are studying the **English Track**, it is only guaranteed that there are **no courses overlapping** if you choose your Specialization in Technology in **Computer Engineering**. The same applies if you mix up the English and the German Track.

### English Track vs. German Track

#### 1. Semester

**Basics in Mathematics / Natural Sciences**

**English Track**
- Mathematics I
- Introduction to Entrepreneurship (Introduction to Business Ethics)
- Management Science
- Financial Accounting
- Economics I

**German Track**
- Mathematics I
- Introduction to Entrepreneurship (Introduction to Business Ethics)
- Management Science
- Buchführung und Rechnungswesen
- Volkswirtschaftslehre I
### Example:
**Course Plan 1. Semester (WS 20/21)**

If you swap courses from both tracks, you must make sure yourself that lectures (and exams) do not overlap by comparing the course schedules: https://www.wi.tum.de/programs/bachelor-in-management-technology-six-specializations/course-schedules/.

---

**Notes:**
- Ensure to check the course schedules online for the most accurate information.
- Make sure to swap courses carefully to avoid overlap in lectures and exams.
Besides the basic modules mentioned below you have to do courses in your technical specialization from the second semester on. For detailed information you find a suitable course schedule for each singular specialization on the website.

**English Track vs. German Track**

**English Track**
- Statistics for Business Administration
- Production + Logistics
- Cost Accounting
- Economics II

**German Track**
- Statistics for Business Administration
- Production + Logistics
- Kostenrechnung
- Volkswirtschaftslehre II
Besides the basic modules mentioned below you have to do courses in your technical specialization from the second semester on. For detailed information you find a suitable course schedule for each singular specialization on the website.

**English Track**
- Strategic & International Management and Organizational Behaviour
- Investment & Financial Management
- Business Law I

**German Track**
- Strategic & International Management and Organizational Behaviour
- Investitions- und Finanzmanagement
- Wirtschaftsprivatrecht I

**Basics in Business**

**Basics in Law**
English Track vs. German Track

Besides the basic modules mentioned below you have to do courses in your technical specialization from the second semester on. For detailed information you find a suitable course schedule for each singular specialization on the website.

**English Track**
- Marketing & Innovation Management
- Empirical Research Methods
- Business Law II

**German Track**
- Marketing and Innovation Management
- Empirical Research Methods
- Wirtschaftsprivatrecht II

**Basics in Business**

**Basics in Law**
Agenda

- General information (courses, exams, etc.)
- English vs. German Track
- Most important legal regulations
- Credit Transfer, International Experience & Communications Skills
- Further information & guidance
- Specialization in Technology
Must Know

• Most important regulations:
  – General Academic and Examination Regulations (APSO) – TUM wide general procedural regulations
  – Program-Specific Academic and Examination Regulations (FPSO) – TUM-BWL specific regulations
  – Enrollment, Re-enrollment, Leave of Absence and Withdrawal Regulations – TUM wide procedural regulations

• Only the German versions are legally binding!

• Important terms:
  – “Änderungssatzung” (Amendment) – not the complete regulations, legally binding
  – “Lesbare Fassung” (Consolidated version) – Regulations + Amendment, not legally binding
  – Legal expression – know the difference (only German version is legally binding)
    „soll“ is expected to, should not mandatory
    „kann“ can not mandatory
    „muss“ must mandatory
    „ist zu“ is to mandatory
General Academic and Examination Regulations

Student’s Progress

• In order to complete the degree program within the regular study period, students must earn 30 Credits per semester.

• It is not recommended to take less than 22 Credits per semester.

• **Program specific (no “GOP”s!) AND TUM-wide hurdle**

  • Student’s progress will be monitored once a semester (Study Progress Monitoring).

  • Please get in touch with your Program Manager Ms. Geiger if you need her advice in order to meet these requirements.
Program-Specific Academic and Examination Regulations (TUM-BWL Bachelor)

- By the end of the second semester, students must have passed at least three of the four following exams: Mathematics I, Management Science, Statistics I, Economics I.

<table>
<thead>
<tr>
<th>Winter term</th>
<th>Summer term</th>
</tr>
</thead>
<tbody>
<tr>
<td>Mathematics I (regular and retake exam)</td>
<td>Statistics I (regular and retake exam)</td>
</tr>
<tr>
<td>Management Science (regular exam)</td>
<td>Management Science (retake exam)</td>
</tr>
<tr>
<td>Economics I (regular exam)</td>
<td>Economics I (retake exam)</td>
</tr>
</tbody>
</table>

- Recognition of credits earned at another university is only possible during the first year of study.

- Please note: If you have more than 29 credits transferred during the course of your degree, you will automatically be moved into the next semester.
Program-Specific Academic and Examination Regulations
(TUM-BWL Bachelor)

General Academic and Examination Regulations

TUM-wide students’ progress hurdle

• Students **must have earned** at least the following total number of credits by the end of the semester in question:

  ✓ 3rd semester, min. 30 Credits
  ✓ 4th semester, min. 60 Credits
  ✓ 5th semester, min. 90 Credits
  ✓ 6th semester, min. 120 Credits
  ✓ 7th semester, min. 150 Credits
  ✓ 8th semester, min. 180 Credits

**Attention:** If students **do not earn the required number of credits** by the end of the semester in question, they will be considered to have failed the modules and will be **deregistered** from the degree program.
General Academic and Examination Regulations

Verbindlich ist allein die amtlich veröffentlichte Version

ALLGEMEINE PRÜFUNGS- UND STUDIENORDNUNG
für Bachelor- und Masterstudiengänge
an der Technischen Universität München

Vom 18. März 2011

Lesebare Fassung
In der Fassung der 4. Änderungssatzung vom 3. Juni 2020

Aufgrund von Art. 13 Abs. 1 Satz 2 in Verbindung mit Art. 58 Abs. 1 Satz 1 und Art. 61 Abs. 2 Satz 1 des Bayerischen Hochschulgesetzes (BayHSchG) erlässt die Technische Universität München folgende Satzung:

Vorbemerkung zum Sprachgebrauch:

Extended deadlines due to Corona

„To counter the effects of the pandemic, examination and other deadlines are extended for the wintersemester“

What does this mean for me as a student?
→ All deadlines regarding my academic progress are postponed by **one semester**!

Including:

1. **Program-specific hurdle („3 out of 4 rule“):**
   → Normally, you need to pass 3 out of 4 of the modules Mathematics 1, Management Science, Economics 1 and Statistics by the end of the second semester.
   → **BUT** due to this special „corona rule“, you have time until the end of the third semester until this deadline applies.

2. **TUM-wide required number of credits each semester (study progress):**
   → Every credit deadline mentioned on slide 28 is postponed by one semester.
Enrollment, Re-enrollment, Leave of Absence and Withdrawal Regulations

• Students have to inform TUM about their change of address or change of name.

• You have to inform the Enrollment Office in case you loose your Student Card.

• If you have not paid your semester fees within the stipulated period, your enrollment will be terminated automatically.

• It is possible to apply for a leave of absence – more information can be found here: https://www.tum.de/nc/en/studies/during-your-studies/leave-of-absence/.

Modules “International Experience“ & „Communications Skills“

International Experience & Communication Skills

International Experience

Communication Skills

3 ECTS

3 ECTS
Options for International Experience

**Study Abroad**
e.g. Exchange Program, Freemover
min. 60 consecutive calendar days

**Internship Abroad**
min. 60 consecutive calendar days

**Other stays abroad**
e.g. Au-Pair, Work-and-Travel etc.
no language courses (Communication Skills!)
min. 60 consecutive days

Interested in a semester abroad? Please get informed here:
https://www.wi.tum.de/student-life/going-abroad/
Options for International Experience

Attention:
The international experience must take place either while the student is enrolled in the Bachelor in Management & Technology, or after students have gained the higher education entrance qualification and no more than three years before they start their studies in Management & Technology (i.e. on or after October 1 three years ago).

To complete the module, students have to
• complete a stay abroad relevant to their subject of studies,
• register and upload the documents for approval to write the exam (via https://ie.wi.tum.de).
Students can then preregister and write the exam.

For more information please refer to the information sheet on our website: https://www.wi.tum.de/programs/bachelor-in-management-technology-six-specializations/downloads/.

For experiences and insights of your fellow students from higher semesters please have a look at

https://tum-som.com/student-experience/
Thank you for your attention!

You can now enter the workshop rooms to get to know the technical specializations from students' point of view and for information on the application process for Medicine.

In the meantime, my student assistant and I will answer your general questions in the Q&A pod.
Join our separate sessions to receive information about your technical specialization of interest!

Note, that capacities for every room are limited!
If you are not able to enter in slot 1, visit a different session and try again for session 2!

What to expect:
• Information about course structures
• Which abilities will I learn when choosing this specialization?
• Which skills should I have?

Fachschaff TUM School of Management
Bachelor in Management & Technology
Specialization in Medicine
Agenda

1. General Information
2. Application Requirements
3. Application
4. Selection Process
5. Admission / Rejection
6. Further Information
1. General Information

Where will you study the specialization in medicine?

➢ **Three departments involved:**
   - TUM School of Medicine, University Hospital “Rechts der Isar” and LMU/TUM pre-clinical schools
   - TUM Department of Sport and Health Sciences
   - TUM School of Life Sciences

➢ **Locations:**
   - TUM Central Campus at Arcis-, Luisen- and Karlstraße
   - University Hospital at Max-Weber-Platz
   - Munich (pre-)clinical schools in Munich city center
1. General Information

Who can study the specialization in medicine?

- Students who commenced their studies in winter semester 2019/20 and afterwards
- Students to whom the engrossed version of the Program-Specific Academic and Examination Regulations (FPSO), effective on 9 October 2019, applies
- Specialization in medicine has restricted admission due to limited training capacity
  → Only 48 places are available for students enrolled in the B.Sc. Management & Technology program

1. General Information

Where can you apply for the specialization in medicine?

- TUMonline → Courses (Lehrveranstaltungen)
- Course Title: “Bewerbung für das ingenier-, natur- oder lebenswissenschaftliche Fach Medizin”

When can you apply for the specialization in medicine?

- Application period: January 19\textsuperscript{th} – April 18\textsuperscript{th} 2021
2. Application Requirements

What requirements must be met to apply?

• Application within the indicated application period → **No late applications** accepted after the application deadline!

• Successful **completion/pass** of the following **required modules of the 1st semester**:
  
  - **WI001058**: “Foundations of Entrepreneurial and Ethical Business”
  - **WI000257_E**: “Management Science”
  - **WI001059**: “Buchführung und Rechnungswesen” / “Financial Accounting”
  - **WI000021**: “Volkswirtschaftslehre I – Mikroökonomie” / “Economics I – Microeconomics”
2. Application Requirements

CAVE!

1. You must register for the aforementioned exams as compulsory subjects and NOT as optional subjects!

→ Grades of repeat examinations cannot be considered in the selection process!

→ You must sit the 1st examination!
3. Application

The application is made through TUMonline → Courses (Lehrveranstaltungen):
https://campus.tum.de/tumonline/ee/ui/ca2/app/desktop/#/login

Please log in using your TUM ID (e.g. "go42tum") or TUM e-mail address and your password.
3. Application

Application through TUMonline „Courses (Lehrveranstaltung)“

Choose „Courses (Lehrveranstaltungen)“ within the menu.
3. Application

Application through TUMonline „Courses (Lehrveranstaltung)“

Filter courses by entering the full name of the course or simply the word “Bewerbung”. Then click on the blue arrow button.

4. Selection Process

Appendix 2 to the FSPO (9 October 2019):

1. Only applicants who meet the application deadline will be considered. Applications received after the deadline will NOT be accepted!

2. Places in the program will be allocated according to academic progress in the 1st semester. Higher semesters and lateral entry students will be considered secondarily.
4. Selection Process

4.1 First Round:
Places will be allocated to those students who have passed the following five required modules of the 1st semester:

- WI001058: “Foundations of Entrepreneurial and Ethical Business”
- WI000257_E: “Management Science”
- WI000021: “Volkswirtschaftslehre I – Mikroökonomie” / “Economics I – Microeconomics”
4. Selection Procedure

4.1 First Round:

• Where more than 48 applicants fulfill the admissions requirements, applicants will be ranked according to their grade point average in these 5 required modules.

• The average is calculated to the second position after the decimal point.

• Where students have equal grade point averages, places will be drawn by lot.
4. Selection Process

4.2 Second Round:
If there are still places available after the first round, more applicants can be admitted as follows:

a) Places will be allocated to those students who have passed four of the specified required modules of the 1st semester. Where more applicants meet the requirements than the number of available places, applicants will be ranked by their grade point average.

→ The average is calculated to the second position after the decimal point. Where students have equal grade point averages, places will be drawn by lot.
4. Selection Process

4.2 Second Round:

b) Places will be allocated to those students who have **passed three of the specified required modules** of the 1st semester. Where more applicants meet the requirements than the number of available places, applicants will be ranked by their **grade point average**.

→ The average is calculated to the second position after the decimal point. Where students have equal grade point averages, places will be drawn by lot.
4. Selection Process

4.2 Second Round:

c) Places will be allocated to those students who have **passed two of the specified required modules** of the 1st semester. Where more applicants meet the requirements than the number of available places, applicants will be ranked by their **grade point average**.

→ The average is calculated to the second position after the decimal point. Where students have equal grade point averages, places will be drawn by lot.
4. Selection Process

4.2 Second Round:

d) Places will be allocated to those students who have passed one of the specified required modules of the 1st semester. Where more applicants meet the requirements than the number of available places, applicants will be ranked by their grade point average.

→ The average is calculated to the second position after the decimal point. Where students have equal grade point averages, places will be drawn by lot.
4. Selection Process

4.3 Third Round:

If there are still places available after the second round, these will be filled with lateral entry students and those in higher semesters.

→ Process as in first and second rounds. Where students have equal grade point averages, places will be drawn by lot.
5. Admission / Rejection

- **Results** of the selection process will be **announced via email** by April 21\textsuperscript{st} 2021.

- In case of acceptance, students must **accept or decline** the offer of admission via email **by April 23\textsuperscript{rd} 2021**.

- If written **confirmation** via email is **not received by the deadline**, the **place** will be **given to next person** on the waiting list.

- After accepting their place via email, admitted students will receive further information concerning courses and the curriculum via e-mail.
6. Further Information

- Specialization in Medicine is taught in German only!
  → A good command of the **German language** (at least level B1) is **mandatory**!

- 5th Semester: Overlap of two courses
  - Evasion to 3rd semester not possible due to another overlap of subjects
  - Students who are not enrolled in the TUM School of Medicine cannot currently access video recordings of medical courses
  → Work on solution in progress.
### 7. Opportunities and Challenges - Things to keep in mind

<table>
<thead>
<tr>
<th>Opportunities – What we offer</th>
<th>Challenges – What you should bring along</th>
</tr>
</thead>
<tbody>
<tr>
<td>Gaining insights into medicine from a theoretic and Hands-On perspective</td>
<td>A genuine interest in medicine and natural sciences</td>
</tr>
<tr>
<td>Get a first idea of how modern medicine works and how medical professionals do their work</td>
<td>Curiosity and the ability to assimilate new facts, figures and information quickly</td>
</tr>
<tr>
<td>Studying side-by-side with health science and medical students</td>
<td>Profound German language skills (at least level B1)</td>
</tr>
<tr>
<td>A unique combination of medicine, natural sciences and business subjects combined</td>
<td>The motivation and perseverance to fill some gaps on your own</td>
</tr>
</tbody>
</table>

*This course has a strong orientation to sciences and medicine and is therefore not a classic healthcare management course!*
8. Classic Medical Management and us – what is the difference?

- Chemistry, biology and computer sciences
  - This is not classic Healthcare Management!

- Anatomy and physiology
  - You will work with medical professionals on eye level…

- Interdisciplinary medical courses
  - …understand their needs and concerns…

- Epidemiology and terminology
  - …translate medical ideas into business ideas…

- Medical Internship and simulation
  - …be a valued partner for healthcare professionals!

- Science basics

- The human body and its basic principles

- Know diseases, therapies, causes

- Talk about studies and results

- Get a unique and practical insight

…understand their need and concerns…
